

LONG YU
Food machine

SV208 多功能包馅机
Multi-functional Encrusting

Product Specifications

Since 2008, the SV208 Multi-Purpose Encrusting Machine has been continuously refined to provide exceptional flexibility for modern food manufacturers. Capable of producing a wide variety of filled and non-filled products, the machine can be configured with different molds, cutting attachments, and optional modules to accommodate diverse production requirements.

Supporting more than 50 product applications, the SV208 integrates seamlessly with a range of accessories and downstream equipment, enabling manufacturers to expand their product portfolio while maintaining efficient and reliable production. With a production capacity of up to 130 products per minute, the machine combines versatility and efficiency to support stable and cost-effective production.

Product Introduction

Product Dimension	168*86*130cm	Power	1.75KW
Net Weight	280kg	Production Capacity	60-90pcs/min
Voltage	220VAC	Finished Product Weight	10-250g

Available Optional Fittings

Multi-Layer Filling System

Expandable to support customized multi-dough and filling combinations.

Forming Attachments

Adapts to different product textures and ingredients for optimal shaping results.

Top & Bottom Flour Dusting Unit

Provides top and bottom flour dusting for sticky products, ensuring smooth handling and improved texture

Processing Range

Shanghai Longyu Eletro-Mechanic Technology Co., Ltd
